

## *THE VILLAGE*

Village is the unit that enrich with most important, beautiful and things. That is filled full of nature, the people who lives there full of gratitude. Their life is very simple, Important thing is they want to produce their food themselves, that is why they are working hardly, the additional food which they produced, are released to outside to sell or exchange with others .Most of the villagers are relations, their lands are transferred to generation to generation.

They are very innocent, humble, they have good hospitality. Most of these attitudes are still remain in the village, still they are following traditional customs and rituals they respect to others even flora and fauna. This is the reason the village is full of green, their habit will be explained onward

*This is an access to the traditional village through the green canopy. With a gravel road.*

*It is a small stream that is an ideal place to bath and wash.*

*It should be traveled over these bridges to access to the village.*

*Hamlet is the plenty flower on stream likes this*

- *Look at this roofing pattern and walling pattern.*
- *Weaved coconut twigs are used for cover the roof.*
- *A pulp (clay) that is made the soil mixed with water is used for built the walls*

## **TRADITIONAL COOKING SYSTEM IN THE VILLAGE**

Considering the traditional cooking system the spices are taken the very special place .Ginger, Pepper, Turmeric, Cinnamon, Chilly, Curry powder,etc... are very very special. Actually the spice is mentioned above are used as well as popular medicines. Normally they are planted in their home garden to use in emergency.

The earthen ware, firewood and hearth are taken the very special place when they are cooking. The kitchen is already built specially for that. The importance is the villagers can collect all of these in free of charge.

**TURMERIC**

**GINGER**
